Please, consider that XM Radio is a paid for service. The customers such as myself, requested and prefer the programming as is. Please do not, make limitations on free speech and free enterprize, in America. Traffic an weather are of utmost importance in the transportation industry of which I am a part of. I depend on XM Radio, for safety and ease of travel. Limitting Xm Radio to their format is a kin to censorship, and unwelcome.

Sincerely,

Owner/Operator Truck-Driver:

Steven B. Roll
